The City of La Habra is bedroom community with a population just over 65,000 residents. It is located in the very Northwest corner of Orange County. With no freeway access there is very little manufacturing in the city and the larger retailers have just recently begun to build here. La Habra Woman's Club was established in 1898 and has continued to be an asset of the community since.

Our president completed a grant application from the La Habra Rotary. The Rotary updated their requirements this year and we had to provide financial information on our club.
