City: San Clemente	State: CA	Zip:

Environment

The San Clemente Junior Woman's Club, established in 1948, is a medium club (22 members) located in the beachside community of San Clemente, CA. Members range in age from 20's through 50's. We are a diverse group of women, most of us with children and many with professional careers, and all with a passion to serve our community.

Project Title: Mascara Wands Hours: 10 Donated: \$ In Kind: \$35

The San Clemente Junior Woman's Club collected used mascara wands in 2020 for the Appalachian Wildlife Refuge. Members cleaned the wands and mailed them to the Refuge. Old mascara wands are used to remove fly eggs and larva from the fur and feathers of wild animals. They work great because the bristles are close together. The club was able to gather wands from members and lash salons in San Clemente

Project Title: Coastal Clean Up Hours: 5 Donated: \$ In Kind: \$

The San Clemente Junior Woman's Club participated in the California Coastal Commission's clean up program. Due to COVID-19 the Coastal Clean-up Day was a little different this year. Rather than a specific day it was a month-long event. Clean-up Day is the highlight of the California Coastal Commission's year-round Adopt-A-Beach Program and is billed as the "world's largest garbage collection." Because of safety concerns there was no single day or centrally organized sites this year. Instead, cleanups were self-guided and close to home on any day or days in September of our choosing. SCJWC participated by sharing out to our community via our social media pages and encouraging our members to participate in this socially safe and distanced project. _____

Used battery

Project Title: collection **Hours:** 20 **Donated:** \$ **In Kind:** \$

The San Clemente Junior Woman's club continued to collect used batteries from our members throughout the year to ensure safe disposal. Battery collection allowed for an ongoing socially distanced way for our members to continue our focus on conservation. Conservation collected batteries via porch pick up and reminded members to drop off their batteries through social media posts on our club's private Facebook page. We continue to share our used battery effort on our website to encourage the community to drop off their used batteries with us.

Project Title: Carpooling **Hours:** 50 **Donated:** \$ **In Kind:** \$

The San Clemente Junior Woman's club continued to focus on carpooling when possible with our commutes to reduce the impact we have on the environment. Due to COVID-19 we saw a significant decrease in the number of carpooling hours from our members due to work from home. But members still tried to make an effort to carpool when appropriate.
